IMPORTANT

PLEASE READ CAREFULLY

1. Village Ordinance requires that a permit must be obtained before starting any construction project, repair or alteration work costing more than \$100.00.
2. Permit applications that require drawings and specifications should be filed in the Village Building Department.
3. Work authorized by a permit shall be completed within 6 months.
4. Permits must be publicly displayed during the construction period.
5. For the construction of new buildings (except private garages) the applicant must furnish two sets of plans showing the foundation plan, the floor plan, the elevations, the section showing footings, foundation, floor, wall, ceiling, and roof construction and the plot plan, showing location of building or buildings on property. This may be submitted on a regular survey, provided that the survey is marked in a legible manner.
6. For the construction of a private garage only a plot plan showing the location of the garage with reference to property lines and main buildings must be filed.
7. For additions to existing buildings and porch enclosures, a plan or sketch must be furnished showing the same information required for new buildings (See Paragraph 5).
8. If work requires plumbing and/or electrical work, a permit applications for plumbing and/or electrical must accompany an application for a building permit.
9. The Building Department Office must be notified when footing forms and/or wall forms are installed and ready for concrete. Two hours notice should be given to the Building Office each time concrete is to be poured for each permit. (Building Department Offices 708-331-2636)
10. It is the responsibility of the Contractor to call J.U.L.I.E. 800-892-0123 to advise when and at which location excavating will be done. Each company will stake out (if necessary) where their gas, electric, telephone, water, and sewer facilities are located on said property and no excavating shall be started until this has been done or clearance is given by them.
